

Radcliffe Primary Care Centre Prototype Room Drop-In Sessions

Dear Stakeholder,

The new Radcliffe Primary Care Centre currently under construction will be complete by the end of 2008. The LIFT (Local Improvement Finance Trust) Private Sector Developer, Bury, Tameside and Glossop Community Solutions (BTGCS), have constructed three prototype rooms which are actual size replicas of the rooms that will be in the Radcliffe Primary Care Centre, for PCT staff, LIFT stakeholders, service users and members of the public to view.

The prototype rooms consist of a:

- Treatment Room
- Consult/Examination Room
- Dirty Utility (sluice and disposal) Room

The prototype rooms have been constructed for interested parties to view and comment on the layout, finish quality and equipment specification in each of the rooms. Anyone who is interested in viewing them are invited to attend one of the drop-in sessions detailed below. There will be a member of the PCT Project Team available at these sessions to answer any questions and collect comments and feedback.
