

Patients' Council Diary of Events Report Form

Event Title	CAF Workshop
Date	4th June
Author	Hazel Healey
Overview of Event	<p>CAF means Common Assessment Framework and the workshop day took place with service users and carers present. It proved to be very enlightening for all the people present and beneficial in that people were able to share their information about how the service currently feels like for all involved. There were between twenty-five and thirty service users and carers at the workshop and they were able to speak openly about their experiences and the CAF team listened and noted any suggestions. There will be a database containing information about the service users in the hope that peopleX will have better experiences when using Mental Health and Social Care for information and people will be given a copy of their personal information. An excellent workshop.</p>
