

Patients' Council Diary of Events Report Form

Event Title	Opening of North Manchester Hospital Women's & Children's Unit
Date	15th June 2010
Author	Barbara Allen
Overview of Event	<p>We were given the privilege of being invited for a visit to view the new Women's & Children's Unit at North Manchester Hospital before its opening on Saturday 3rd July.</p> <p>Everything is extremely modern it has birthing pools separate rooms if needed, all with on-suite facilities to make it look more like home the beds and medical equipment in some of the rooms have been hidden in the walls but are easily accessible when needed</p> <p>There is a "Chill Room" where the children can go to de-stress which has three water tubes with various colours running through them and soothing music playing in the back ground.</p> <p>This new unit is state-of-the-art, it is light and airy the colours used are relaxing; I only wish I was young again I would definitely wish for my baby to be born there. I am sure that the staff will enjoy working in this unit and get great satisfaction from doing so.</p>
